

LANGUAGE IS A GIFT FROM MOM AND DAD

All children must learn a language. And some children have to learn more than one language, when they're little. Your child will do better in school if it knows many words. So several studies show. Children are expected to know 10.000 words before they start school, so it is important to start early.

You learn a language by using it. Therefore you should talk with your child a lot. When you know words in one language, it's easier to learn the words in other languages. In this film nursery assistants, preschool teachers, and parents show examples of how you can support your child. Talk to the teachers or assistants if you have questions about your child's language skills. Developing children's language is a mutual responsibility for parents and assistants, and teachers. As parents you can make a big difference.

You can watch the film in Danish, Albanian, Arabic, English, Somali, Turkish, and Urdu. It was made with subsidies from The Danish Ministry of Education.
